DETAILED ACTION

Allowable Subject Matter

1. Claims 1-9 are allowed.

The following is an examiner's statement of reasons for allowance: The allowability of the claims resides, at least in part, that the closest prior art of record **Stoddard et al. (US 6,587,744)** does not disclose or suggest, alone or in combination the step of:

Regarding independent claim 1, **generating a tag associated with the plate-shape object and representing a processing parameter offset of the processing device used in the processing step; and calculating a new set of values of the process parameters in response to the metrology results and the tag**, in combination with the other elements and features of the claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
